

Did you know?

At your private dental check-up...

- We ask to see if you are happy with the appearance of **teeth and gums**
- We ask how **healthy** you feel your mouth is
- We ask if you have any problems or concerns
- We check the health and stability of any **existing restorations** (ie crown/bridge)
- We check the health of your **gums**
- We check for the presence of any **plaque** as it can cause serious problems
- The **TLCS** – tongue, lips, cheek, skin are checked
- We give you an **oral cancer screening**
- We check the health of your **jaw joints**
- Your **neck** is checked to ensure glands are healthy
- Your **bite** is checked for health and comfort
- We take dental **x-rays** to check under, inside and between your teeth
- These dental x-rays are studied to ensure **bone levels** around your teeth are healthy
- We talk about **your lifestyle** – smoking, drinking and diet
